Friends of the Tay Watershed 2022 Water Guardian Bursary

Greetings,

The Friends of the Tay Watershed are pleased, once again, to announce the provision of a \$1,000 bursary to assist a graduating Tay Watershed high school student or an alumnus pursuing post-secondary studies in Environmental Science or a related program concerned with the environment and water sustainability.

We wish to emphasize that this award is not based on marks but on a passionate interest in the environment and water sustainability. It is open to Tay Watershed students: those graduating from high school as well as those continuing post-secondary education in recognition that continuing students in their second and third years are often in need of funding. To this end, the dates of application and award are set to May-July to provide an opportunity for watershed students who may now be studying at a distance from the Tay Watershed.

Following are the two pages concerning the application form for the bursary. Your help in bringing this to the attention of interested graduating students or interested alumni would be appreciated.

Thank you for your interest in and past support of our bursary program and for sharing this information with this year's graduates as well as any graduates from previous years who are pursuing environmental studies.

Sincerely,

Frank Roy

Friends of the Tay Watershed
Water Guardian Bursary 2022

The Friends of the Tay Watershed are offering a \$1,000 bursary open to students from a Tay Watershed high school, planning to study or currently enrolled in a Canadian university or college, in a fulltime, post-secondary degree or diploma program in environmental sciences, water sustainability or a related discipline.

Applications should be sent to the Bursary Selection Committee by e-mail to friends@taywatershed.ca , subject line “Bursary”, or by Canada Post to

Friends of the Tay Watershed Association
Attention: Bursary Selection Committee
P.O.Box 2065
Perth, ON, K7H 3M9

Applications must be received by no later than 30 June, 2022. The winner will be announced by 31 July, 2022.

Background information is to be submitted on the attached application form.

Along with the application form, the following are also required:

1. A statement, of about 500 words, outlining the candidate’s view on the importance of the environment and water sustainability and why the candidate has chosen the institution and study program planned or currently enrolled in;
2. A letter of recommendation from a school/faculty official; and
3. A letter of recommendation from a person who is not a family member.
