

Please join us in protecting our Heritage Watershed

Dear Member and supporter

Giving Tuesday, Dec. 1, is a global movement that unleashes the power of people and organizations to transform and build strong and resilient communities through their donations.

A healthy watershed builds a healthy and more resilient community. Friends of the Tay Watershed are proud of the work they have undertaken over the last 20 years to

conserve the Tay Watershed through programs that create a greater public awareness of the importance of a healthy watershed. While Covid-19 has interrupted our in-person activities, Friends of the Tay Watershed has partnered with the Rideau Valley Conservation Authority in providing a new educational program initiative. Virtual online sessions will be offered over the next several months on topics related to progressive watershed management.

Friends of the Tay will also continue to offer our Water Guardian Bursary which is designed to encourage students to pursue educational interests in water conservation. Giving Tuesday is an opportunity for the public to financially support the programs and initiatives of our organization in 2021. At this time we also encourage you to make a donation renew your membership, which you can do by visiting our website.

Please visit our website www.taywatershed.ca to learn more about what we do, to [make a donation](#) and to [renew your membership](#). Your financial support in helping us is much appreciated.

Glenn Tunnock, President
Friends of the Tay Watershed
