Water Guardian Scholarship awarded to Derek Oliver.

The Friends of the Tay Watershed Association are pleased to announce that the 2014 Water Guardian Scholarship has been awarded to Derek Oliver of Perth, Ontario. Derek is a student at the Perth and District Collegiate Institute, and plans to continue post secondary studies in Agricultural and Environmental Sciences at MacDonald Campus of McGill University. This \$1000.00 award will help him in his pursuit of better water resource management techniques as he takes over the operation of the family farm.

The Water Guardian Scholarship is open to secondary school students from a Tay Watershed high school who intends to follow a full-time post-secondary (college or university) diploma or degree course in Environmental Sciences or related discipline. The scholarship is funded by donations made to the Friends of the Tay. We are particularly appreciative of the continuing support of this project provided by the Little Stream Bakery of Glen Tay.
